

## Smart Disease Control Solutions

Leveraging Edge AI on Facial Mask / Body Temp. Detection on Access Control for Disease Control Solutions

Integrated with deep learning on video analytics by Gorilla technology, utilizing Intel OpenVino tool kits, it could detect facial mask plus additional body temperature detection versus identity verification with privacy protection, and makes it efficient to well manage disease infection condition on transportation gateway, building doorway, healthcare or hospital entrance control. Wincomm provides the medical grade and full IP panel PC system to enhance this solution easy to clean, install and maintain.

## Deployment Sites

## Product Features

- Intel® 7th generation Core i7/i5/i3/Celeron processor
- Highest Level EMC 4.0/ Safety 3.1 Certification Ready
- CE/FCC/VCCI Class B Certified
- Integrated Hot-Swappable Batteries, 24/7 Run-Time
- Optional MXM 3.0 Module or Intel Movidius AI Vision by Project Support
- Support Intel vPro by Optional i7/i5 CPU
- M.2 2280 NVMe SSD, RAID 0,1
- Support i-Control Management for Power /Thermal /Battery
